

7 PRAYER GUIDE

ADDRESSING VULNERABILITIES

fastingtosaveamerica.com

The biggest vulnerabilities in our 2020 elections that we must address in prayer, confrontation and rebuke:

1. Upright people failing to vote. Many upright people failed to vote in the 2020 election. They were distracted. They were ambivalent. They were not committed. They were deceived theologically. They were distracted. They didn't believe fraud would take place and steal the election. They were passive.

Confront these attitudes and influences within the Church (Ekklesia) and dismiss these influences. These mindsets must leave the body of Christ. Call the body of Christ unified for righteousness sake.

2. Many people of faith have had a contempt for the GOP candidate. These need to be led of the Lord and convinced that it is not their taste, not their preference, and not their will that needs to be done. It is God's will that needs to be done. There needs to come a revelation and understanding of God's will concerning this coming election. Believers in Jesus need to be listening to His voice and following His command concerning their vote and who receives it.

Conviction of the Holy Spirit come upon the body of Christ and all who call themselves Christian. Expose and judge carnal wisdom, earthy wisdom and selfish wisdom.

3. Ballot harvesting Republican votes. We can't rely on just election day turnout b/c as we saw in Maricopa County, they'll just shut down the machines and cause long lines that make people go home w/o voting. We have to treat election day for what it now is - election season. Harvest GOP ballots the entire time.

Declare no obstructions will come to the vote of the upright. Declare perseverance and determination over the righteous voters. Rebuke all kinds of interference.

4. GOP Observers - DO NOT GO HOME DURING COUNTING. Democrats lied in multiple swing states about how there was a “pipe burst” or “all counting is done” and then they stayed behind to defraud the vote. Make the police drag you out of those counting centers. Do NOT leave Democrat ballot counters unattended.

Declare every plan of fraud canceled, thrown into confusion, exposed and judged by the Lord.

5. 24/7 surveillance of ballot drop boxes and counting centers. The unclean and perverse stuffed ballot drop boxes and had trucks filled with ballots show up at 3 AM when everyone was asleep. We not only need observers and cameras stationed 24/7, but we also need lawyers who can file *emergency injunctions* to stop these illicit ballot dumps.

Call the upright into action. Call the upright into bold and wise confrontation. Call forth lawyers who will stand for righteousness. Call forth the failure of printing machines, the exposure of those printing illicit ballots. Cancel the transportation of those with illicit plans. Bind up Leviathan (the twisting serpent, the deceiving spirit of pride) - under the authority of Christ Jesus - rendering Leviathan unable to operate and succeed in these endeavors.
