## PRAYER GUIDE

GLOBAL DELIVERANCE

[fastingtosaveamerica.com](http://fastingtosaveamerica.com)

We want to keep the concept in mind that this is a global deliverance. Jesus is wanting to bring forth a global deliverance. He's wanting to speak through His body with authority and drive the unclean out of government and out of our nation. Demons are violators, they are disobedient, they do not want to cooperate, but must when we rely upon the mighty name of Jesus. Demons have to be driven out, and as they go, they will often be throwing a fit. So, we don't speak to them softly. We don't beg God to take them away. He has empowered us as deputies to drive out the unclean. We have to keep this perspective in mind instead of being threatened or instead of begging Father to do something. He will do something through partnering with you who have authority. The unclean realm has to be driven out.

- Driven out of government is all fraud.
- Driven out of those who serve as democrat and republican - all are set free.
- Their motives are exposed and judged; Selfish ambition is judged. The love of money is judged. The lust for power is judged. The hatred and contempt for others is judged. Unclean values are judged.
- Cheating, corruption, lies, and fraud of all types is driven out of all offices of government in our nation - driven out of the presence of these offices and out of those who hold the offices. Driven out of those who carry the responsibility of overseer.
- Exposed, shamed and judged are those who partner with fraud and deception.
- Deception of all kinds, lies, deceit and fraud is driven out of those who count the votes of our nation be it at the state level and the federal. Spirits that inspire cheating and deception are dismissed and driven out of the election counting and tally of votes.
- Cheating software fails. Cheating software jams. Cheating software crashes. Computers crash. Servers crash. Internet links fail. Cables breakdown. All technical equipment and connections used for cheating fails. The Lord brings a crash and a failure to all technology used for cheating.
